

Zoë O'Brien-Şahin — Extended Career History

Role 1 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 2 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 3 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 4 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 5 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 6 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 7 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 8 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 9 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 10 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 11 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 12 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 13 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 14 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 15 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 16 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 17 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 18 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 19 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 20 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 21 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 22 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 23 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 24 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 25 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 26 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 27 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 28 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 29 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 30 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 31 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 32 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 33 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 34 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 35 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 36 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 37 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 38 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 39 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 40 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis. Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.

Role 41 of 45

Delivered offshore wind cable-route surveys and stakeholder liaison across a portfolio of consented sites, coordinating with regulatory bodies and subcontractor dive teams to keep programme milestones on schedule. Led a cross-functional team through detailed design review, cost estimation and risk registers, presenting findings to senior stakeholders at Northwind Offshore Ltd and Cerulean Rail Group on a recurring basis.
